Our garments are sold mainly across the UK and Europe however we can ship anywhere in the world.

The cotton is picked and ginned in Kantabanji and then transported to Noidar.

The cotton is spun into workable yarn for our factory in Dhaka.

The yarn is knitted, dyed, cut and sewn at our factory in Dhaka, this is where our yarn is transformed into the garments you buy.

Once the finished garments arrive in the UK they are stored at our warehouse ready for purchase. All of our garments can be supplied both printed or blank.
